Bootstrap (Framework), Cascading Style Sheets (CSS), Git, GitHub, HTML, JavaScript, Research, Responsive Web Design, Tailwind CSS, Visual Studio Code (VSCode), Vue.js

PROJECTS

E-commerce Product Page 04/2024

- Developed a responsive product page with a seamless lightbox gallery to enhance user experience.
- Utilized advanced Tailwind CSS for dynamic theming and a utility-first approach to styling.
- Optimized component communication to ensure efficient and smooth interactions.

IP Address Tracker 03/2024

- Created an app to allow users to explore IP address details and domains effortlessly.
- Implemented IP Geolocation API and Leaflet.js for precise and interactive mapping.

Age Calculator 02/2024

- Built an application for users to accurately calculate their age and discover their zodiac signs.
- Employed advanced logic and robust form validation to guarantee precise calculations.
